

The Last One!

Place your name on the back of this sheet of paper and nowhere else. Staple your answers on the front of this sheet of paper. Failure to follow these directions will cost you 1 point. Your assignment will be typed, except graphs can be drawn by hand and mathematical equations can be done by hand. Failure to type it will cost you 10 points. If you use double-sided printing or print on the back of scrap paper, I will give you one additional point.

- 1) (25 points) China is a hybrid of communism, capitalism, and a developing country. Which economic model do you think applies best to them? Why did you choose that?
- 2) (20 points) Most of the cities with the worst air pollution are in China. Why does China have such a problem? What can be done about that? Explain your logic.
- 3) (20 points) If China was to become more capitalistic, then what should they do next? Explain your logic.
- 4) (15 points) Why do you think China as survived communist well after the USSR fell? Explain your logic.
- 5) (20 points) Many people say that China will have major problems in a couple of decades. Why do you think this is true? Explain your logic.
